

COSMIC is offering two certifications exam:

1. COSMIC Foundation Level (previously referred to as Entry Level)
2. COSMIC Early and Quick Size Estimating (since Fall of 2020)

The roles of the Certification Committee are:

- To develop examinations that certify the competence, at various levels, of users of the COSMIC method and to maintain the certification process aligned with the evolution of the COSMIC method;
- To manage the certification exam process including approving the scheduling and management of specific exams, issuing exams documents, and issuing certificates to successful candidates.

The Chair of the Certification committee is Jean-Marc Desharnais.

If you are interested in organizing or taking an exam, please contact:

[jean-marc.desharnais@cosmic-sizing.org](mailto:jean-marc.desharnais@cosmic-sizing.org).

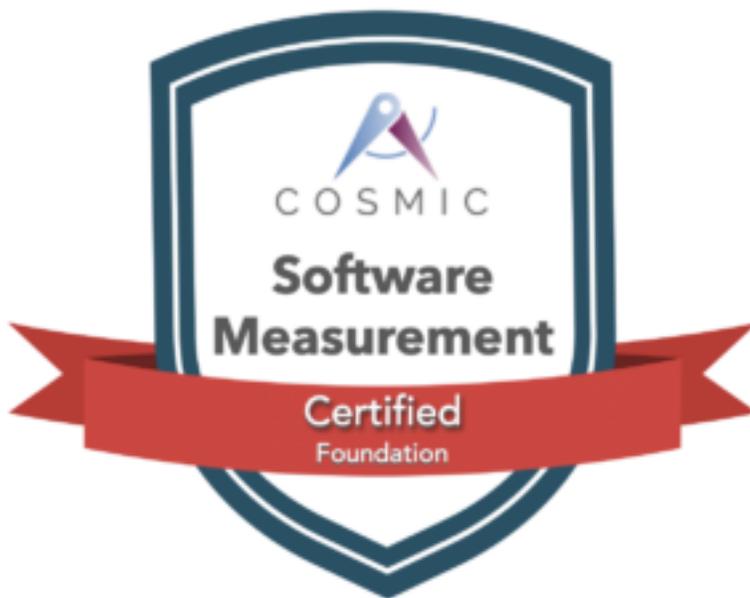

Other members of the Certification Committee are:

- Alain Abran (Canada)
- Sylvie Trudel (Canada)
- Frank Vogelezang (the Netherlands)

The standard Functional Sizing for enterprises *and software engineering searchers*

Recognition and Career Development

Get the official COSMIC accreditation only through [cosmic-sizing.org](http://cosmic-sizing.org)

COSMIC Certification opens new doors for professional and career development. Employers often require proof of proficiency or training to demonstrate that you are capable of performing the tasks required of you. The COSMIC organization has set up a Certification Scheme for those who require such proof.

There are currently two levels of certification available for COSMIC:

- Foundation Level.
- Early and quick size estimating

The **COSMIC Foundation** examination is designed to test your knowledge about the basic principles of Functional Size Measurement, the COSMIC Method, and the Measurement Process.

The **Early & Quick Size Estimating** examination is designed to test your knowledge about your knowledge and ability to estimate the COSMIC size of a software project at an early stage of the software development.

If you pass the examination you will be awarded a **certificate**, and your name will be added to the published list of certificate holders.
